

HY02 603

Wireless Heating Thermostat

Programmable LCD 3A Wall-Hung Gas and Electric Boiler Heating Temperature Thermostat also to be used as underfloor heating for Both wet and Electric system. Thermoregulator with backlight, simple to read with Wi-Fi own smart functions.

Technical Data

Power Supply	AC200-240VAC 50/60HZ
Accuracy	±0.5°C
Probe sensor	NTC (10K)1% with External Sensor Option
Load current	3A (water heating),12A/16A (electric heating)
Temperature Adjustable Range	5- 35 °C
Working environment temperature	0-70°C
Output	Switch relay
Insulating condition	Normal environment
Running program	Set per 1 week as a cycle
Installation	Wall mounted
	Gas Heating System
	Electric Heating System
Certificate	CE,RoHS
Apps	 Smart RM
	 Smart Life
Voice Control	 Google assistance
	 Google assistance home
	 Alexa
